

St. Michael Building Committee

Introductory Meeting

Building Committee Members:

Present	Fr. Borowiak	Sue Braun	Judy Charlson
	Randy Chevalier	Bill Graeve	Dr. Josh Miller
	Mike Morgan	Ed Ring	

Randy Milbraith & Joe Kotulak representing RDG
Jeff Chadwick representing Clark Enersen

Absent Taylor Ashburn

Meeting began with prayer in the chapel. Following a short introduction and background of each committee member and what their expectations were, Randy Milbraith led the discussion going thru a PowerPoint presentation. Some points from this first meeting:

- RDG will lead in the design of the church, with Randy Milbraith taking the lead, as churches are his area of expertise. Clark Enersen will lead in the design of the junior high/basement as that is there area of expertise. RDG is currently involved in the Pius expansion. They have done 140 churches.
- Discussed the two phases, 2A and 2B, with 2A the completion of the shell for approximately \$9mil, and 2B the completion of the interior.
- To keep meetings flowing, Randy Chevalier will be the facilitator and Sue Braun the timekeeper of our meetings to keep us on task.
- Reviewed the initial renderings, allowing everyone to get a basic concept of the nave, narthex, choir loft, daily chapel and basement. That review led to Randy Milbraith saying there have been studies that that show you want pews no further than 65 ft. from the altar or you lose people's attention.
- Just started going thru some of the "Issues for St. Michael Building Committee Consideration" list.
- Of immediate importance was getting a property survey done. K&M was the low bidder. That contract will be signed before the next meeting
- Due to time constraints, Fr., Sue and Jeff Chadwick are going to meet outside of our regular scheduled meetings to work on the basement configuration.
